

PennyTel

Basic Configuration for X-Lite Softphone

Counterpath X-Lite softphone allows you to make calls using your PennyTel account straight from your computer!

First you will need to download X-Lite from the following link if you haven't already done so:

<http://www.counterpath.com/13#Download>

Once you have downloaded the program, install it to your computer and configure it to the following settings,

When setting it up, you will need to set it to the following SIP Account settings and it should be fine to work from there,

Display Name: your PennyTel Number

User Name: your PennyTel Number

Password: your VoIP password we provided you in the email we sent you when you first signed up

Authorization User name: your PennyTel number

Domain: sip.pennytel.com

Register with domain and receive incoming calls: Ticked

Send outbound via: Domain

Properties of Account 1

Account Voicemail Topology Presence Advanced
